

# BLU $\bar{E}$ LINE<sup>®</sup>

SORT FINES

## SORT FINES

Air jig with feed hopper

## Air separation component

- Stepless adjustment of screen insert inclination (screen lining inclination) and height of the light material barrier
- Large speed range for optimal adjustment to feed material
- Two different amplitudes can be selected via control technology
- Large range of various screen inserts
- Easy screen insert changes thanks to service position

## Dosing chute

Optimal homogenisation and dosing using automated slide position

## Optional vibrating feeder

- Brake curtain for dosing of the input material
- Up to 4 m<sup>3</sup> load

## Strong fan system

Three high-power fans enable operation of three independently adjustable air zones

## All conveying technology on board

- External belt conveyors available in two different lengths that can be used universally within the BLUELINE system
- High-efficiency drum motors – low-maintenance, durable and reliable!
- Suction hoods to reduce dust emissions available as an option

## Variable material discharge

- Optimised system layout thanks to free selection of discharge side
- Integrated belt scraper prevents caking

## BLUECTRL

- Wireless, decentralised, IT-based control and process control using a tablet (BLUE PANEL)
- All-in-one solution for all BLUELINE system configurations

### Total mass

8,600 kg / with feeder 10,000 kg

### Dimensions\*

6,050 x 2,450 x 2,700 mm / with feeder 6,050 x 3,000 x 4,200 mm

### Highest sound pressure level\*\*

73.8 dB(A)

### Connected load

3N ~ 400 V / 63 A / 50 Hz

\* Without conveying technology and attachments  
\*\* 1 m distance from the module surface, empty operating state, without material
